

Australia Division – Victoria State Group

<http://www.istructev.tk/>

Meeting: Monday 7th February 2011.

Presented By: Mr. Vito Trantino
Design Manager | McConnell Dowell Constructors (Aust). Pty Ltd

Vito is a Design Manager with McConnell Dowell Constructors in Melbourne. Having graduated with a Bachelor of Civil Engineering from Monash University in 1994, Vito has held positions as a Structural Engineer with BHP Engineering in Brisbane and Port Hedland and GHD in Melbourne.

Vito joined McConnell Dowell in 2002 where he has played instrumental design and management roles on large design and construct civil infrastructure projects such as Narre Warren Cranbourne Rd Grade Separation Project in Melbourne and the Bakewell Underpass Project in Adelaide, both of which included laterally launched rail bridges to overcome long closures of the public rail corridors.

Vito's presentation will feature the Glenelg Tram Overpass project, for which he was the Design Manager. The project involved the design and construction of a multi-span bridge allowing trams to pass over the top of South Road, a busy North-South arterial road in Adelaide, thereby removing traffic congestion created by the existing level crossing. The presentation will focus on the key design and construct challenges and design innovations.

Vito is currently the Design Manager for the Seaford Rail Extension project in Adelaide which includes a 1km long incrementally launched rail bridge, two rail stations, three local rail grade separations and a rail car stabling depot.

Topic: Glenelg Tram Overpass Project

Venue: Melbourne University
Engineering Building –
Lecture Theatre C1
4th Floor, Engineering Block B
(Refer Map attached)

Time: 6.00pm
Refreshments from 5.30pm, room B309, 3rd Floor, (West end) Engineering Block B.
Telephone Ken Nagato (0408 383 780) if you are having trouble locating the room.

Please **RSVP** by: Friday 4th February 2011 to Admin@burnshamilton.com.au

Notes: - IStructE-Victoria policy for all our evening technical meetings is to make no charge at all unless we specifically state otherwise
- Rooms may be subject to change due to their availability. You will receive a notification email of any changes.
